AFFIDAVIT OF S.A. THOMAS J. MITCHEM

BEFORE ME, the undersigned authority, appeared by telephone, Thomas J. Mitchem who, after being duly sworn, stated the following information which he acknowledges as true to the best of his knowledge and belief:

INTRODUCTION AND AGENT BACKGROUND

1. I have been a Special Agent with the Federal Bureau of Investigation for 15 years. Prior to becoming a FBI Special Agent, I was employed for approximately 5 years as a Special Agent with the Georgia Bureau of Investigation. Upon being hired as a Special Agent with the FBI, I attended the FBI Academy in Quantico, Virginia, where I received extensive training on investigating various violations of federal law. Over the course of my law enforcement career, I have received training in federal firearms laws, conducted numerous investigations into the violation of Title 26, United States Code, Sections 5861(d) possession of a firearm not registered to him in the National Firearms Registration and Transfer Record (NFRTR), Section 5861(f) manufacturing a firearm in violation of the provisions of this chapter, and Section 5861(i).

PURPOSE OF AFFIDAVIT

2. Affiant is currently participating in an investigation of an unlawful possession of unregistered NFA weapons and manufacturing NFA weapons in the Middle District of Georgia, specifically unlawful possession of a short barreled rifle

by: Cody Richard Griggers, W/M, DOB: September 18, 1992 , SSN: XXX-XX-9988. The local investigation began in November 2020 and is being conducted by agents of the FBI and ATF. This Affidavit is submitted in support of a criminal complaint for Cody Richard Griggers. This affidavit shows that there is probable cause to believe that Cody Richard Griggers violated Title 26, United States Code, Sections 5861(d) possession of a firearm not registered to him in the National Firearms Registration and Transfer Record (NFRTR) and 5861(f) manufacturing of illegal firearms.

INVESTIGATION AND PROBABLE CAUSE

3. As a result of Affiant's personal participation in this investigation and reports made to him by other law enforcement officers, Affiant is familiar with this investigation. On the basis of this familiarity, and on the basis of other information that Affiant has reviewed and determined to be reliable, Affiant declares that the facts contained in this Affidavit show that there is probable cause to believe that Cody Richard Griggers has committed the Offense of Title 26, United States Code, Section 5861(d) possession of a firearm not registered to him in the NFRTR and 5861(f) manufacturing of illegal firearms.

Pursuant to two search warrants signed July 31, 2020, by a Magistrate Judge in the Southern District of California, and executed on August 1, 2020, the FBI seized and searched a mobile telephone belonging to GREY ZAMUDIO, the subject

of an FBI San Diego investigation. Among the people with whom ZAMUDIO was in regular contact was GRIGGERS and other individuals who were part of a group text they referred to as "Shadow Moses" or "Shadmo." ZAMUDIO'S cellular telephone was forensically exploited by FBI San Diego on August 8, 2020 and the forensic report was created on August 18, 2020.

By way of background, FBI San Diego's predication for their investigation into ZAMUDIO, in part, was based on information they received that ZAMUDIO had posted several Facebook posts (written here as relayed by FBI San Diego) stating "the only good liberal is a dead liberal," "I'm ready to die, I welcome Valhalla," "They have become seperatists, the police can't do anything, they are held back by heratic polititions an the law of there badge, anything the police do will make the situation worse, it's up to vigilantie militia to crush the liberal terrorists [sic]." In addition to the posts, ZAMUDIO had posted videos of himself in the desert practicing reloading weapons and shooting while running/walking. Additionally, in some pictures posted ZAMUDIO was seen wearing a plate carrier that appeared to have a ceramic plate installed and what appeared to be a Kevlar helmet. Furthermore, it was learned by FBI San Diego, that ZAMUDIO owned several assault rifles with suppressors. FBI San Diego verified through the ATF that ZAMUDIO did not have any firearms (suppressors) registered to him and had not paid any tax to the ATF for the receipt of firearms.

4. Through research in National Crime Information Center, the Georgia Driver's license database, the Georgia Driver Record and Integrated Vehicle Enterprise System, FBI records, and open source databases, the FBI verified GRIGGERS' full name, date of birth, residence and his vehicle registration. They were:

- a. Date of birth: XX, XX, 1992
- b. Social Security Account Number: XXX-XX-9988
- c. Address: 4146 Georgia Highway 112, Montrose, GA
- d. Telephone Number: 478-595-0569
- e. Georgia Driver's License Number: 055370365
- f. Vehicle: White 1996, Toyota Tacoma XTRACABi
- g. Vehicle VIN: 4TAWN72N3TZ142352
- h. Vehicle License Plate: GA RCP2932
- i. Vehicle Registered at 4146 GA Highway 112, Montrose,
Georgia
- j. Employer: Wilkinson County

5. On November 17, 2020, an ATF Special Agent provided information which corroborated that GRIGGER'S had no registered NFA firearms.

6. The Shadow Moses or Shadmo group discussed militia-type prepping, including lengthy discussions of weapons, combat gear, and survivalist techniques.

GRIGGERS made multiple statements indicating that he was engaged in manufacturing and acquiring multiple illegal firearms, explosives, and suppressors. GRIGGERS also expressed viewpoints consistent with white racially motivated violent extremists (RMVEs), including the use of racial slurs, slurs against homosexuals, and making frequent positive references to the Nazi holocaust.

7. Based on statements and photographs sent in the Shadmo group text, FBI San Diego determined that GRIGGERS was a sworn law enforcement deputy with the Wilkinson County Sheriff's Office in Wilkinson County, GA. GRIGGERS described working in the local jail, and on 8/31/2019, sent a picture of a Wilkinson County Sheriff's Office cruiser, stating it was his work vehicle. GRIGGERS made subsequent statements describing police work, including statements that he engaged in "room clearing drills" at abandoned properties while on patrol. GRIGGERS also offered to provide ZAMUDIO with law-enforcement only 9mm ammunition, as well as law enforcement explosives.

8. This list of statements is not comprehensive. Below are statements made that indicate potential illegal activity or propensity for extremist ideological violence. All statements in quotation marks are verbatim, including spelling and grammar errors.

9. 12/30/2018: Discussed obtaining various prescription medications;

stated he had the following medications, and discussed distributing them to fellow Shadmo members:

- a. Ropinirole 1mg x31
- b. Pramipexole 0.5mg x1
- d. Levothyroxine 50mcg x31
- e. Lamotrigine 25mg x4
- f. Gabapentin 300mg x125
- g. Lithium Carbonate 300mg x176
- h. Atorvastatin 10mg x22
- i. Hydrochlorothiazide 25mg x116.5

10. 1/22/2019: In discussing gun control laws; "Well, last time it worked, fucking Bitch ass Clinton's, but it could go like the NFA did, originally it meant to limit concealable weapons and automatic weapons. The pistol limitation portion got thrown out but the AOW, SBS, MG, and SBR limits stayed. The idea of limiting SB(R/S) was actually to keep weapons from being turned into pistol sized for concealability. They failed in there aim but did lasting damage to freedom. They're primarily attacking our ability to more easily conduct guerrilla warfare as that is our main defense against what they presently are, a greater enemy than foreign enemies"

11. 1/22/2019: "When they took destructive hey says they took our ability to engage in conventional warfare provided that we had the funding to do so. There is virtually no threat to the government of a conventional attack domestically speaking. All that we have left is unconventional warfare, and that is all but taken away with a modern force equipped primarily to combat unconventional warfare. Modern sensory equipment and battlefield forensics combine to Easily cut the head

off the snake of an unconventional force. Our only saving grace is that for the time being they have not brainwashed the military completely, and as for lawenforcement there is still a lot more brainwashing to be done. Unfortunately a good percentage of the population believes that citizens cannot legally own automatic weapons, and thus they are associated with evil. This type of brainwashing only gets worse with the generation, And these new generations are white is beating the military and lawenforcement, as well as voters. It is only a matter of time before what is now quiet submission turns into overt self-destructive behavior in the military as well as law-enforcement like it already has with voters. Everyone's priorities are so fucked up that all it takes is some stupid sports team getting a New stadium, which no one bothers to think of where the funding comes from to build, and the population is willing to throw away the protection to every rights that they have ever had or ever will have for the sake of childish Entertainment. On one hand it infuriates me, on the other hand I wanted to go ahead and fast-forward so I can enjoy the suffering of the abortion that is the American population."

12. 1/22/2019: In discussing a theoretical civil war; "It still makes them a martyr unless you can plant evidence that they were actually pro- America and have it believed. You have to take away the perception that they are on the enemy's side before you kill them, or else it is assumed that they died bc of their views. All making it look like an inside job does is make sure you don't get caught, doesn't make them

less of a martyr. I see what you are saying but I'm thinking of it not so much as what is better but what is good enough, and as it stands America is the best but isn't good enough. You mean set up C4 in the toilets when you plumb in the city? I like where this is going, Force their heads out of their asses through concussion! Btw, if you want to feel better, look at a map of America with each county blue or red.... fuckers would be slaughtered."

13. 3/20/2019: GRIGGERS sent a video of himself shooting a suppressed firearm.

14. 3/21/2019: GRIGGERS continued to discuss the manufacture of suppressors; "Made a pretty good one for a .300AAC using m baffles and 2 altered flat baffles last night but couldn't test it on the .300 as my buddy's handguard extended beyond the barrel and is too thin for it. We tested it with 5 rounds on a .308 with an 18" barrel and got loaded ammo, and the blast baffle wasn't even dirty looking. Was pretty damn quiet too considering."

15. 4/7/2019: Discussing recruiting new people and making explosives; "Oh btw shadmo east is up to 4 ppl now lol"/"And I'm getting super technical and shit with training plans. Also we are about to start making breaching charges" After ZAMUDIO stated he wanted some of the explosives, GRIGGERS stated "Idk about shipping, but with road trips or information sharing, I got you. Meaning I'm not putting explosives in the mail but I will do the rest and tell you how to make the

explosives. Also I'm cool with in person shit obviously. Explosives will be on par with c4. C4 is rdx with a stabilizer, I'm using ent with a stabilizer. Rdx is pound per pound equivalent to ent, so they should be about the same. The charge will be placed between a durable water balloon and adhesive, the adhesive is used in placing the charge, and the water, being a liquid, must change state in order to compress, as such it does a great job of directing the blast towards the door. This means the blast isn't as powerful on your end, but more powerful on the door's end. Basically it's much safer"

16. 4/7/2019: GRIGGERS discussed a suppressor he had made; "We made a .300AAC suppressor the other day that I'm quite proud of. Fucker suppressed a .308 reasonably well". His use of the term "we" indicates more than one individual involved in a conspiracy to manufacture suppressors.

17. 7/21/2019: GRIGGERS discussed making fully automatic triggers.

18. 7/30/2019: GRIGGERS discussed making suppressors and fully automatic weapons: "So I'm basically going to create an AR based system that gives me these assets AR15 (select fire) Standard assault rifle 9mm pdw w/underbarrel 12ga Belt fed lmg AR10 (select fire... just bc) Lightweight .308 maximized precision From there I'll deviate and get precision bolt actions in long range cartridges. I might move the eotech to the lmg and then get a nightforce nx8 for my standard rifle. Idk about the subgun yet, it might get a trijicon reflex. So today I got essentially a lower

receiver, bolt carrier, 3" barrel, and wide handguard to run the suppressor under. Still need to make the suppressor and trigger group, then it's just adding the pdw stock and the pistol grip. ROF should be high as hell bc it's going to be short stroked, polished, and lightened until it can just barely eat anything I want in it. I got a buddy who can help me mill the lower parts until I get my own mill, and as for the suppressor I'll just wait until I get my own lathe or order a solvent trap for the time being until I get something better. The suppressor is going to be long and wide so it should be badass quiet even with the lesser technology"

19. 7/31/2019: GRIGGERS discussed current ownership of a 5.56mm suppressor: "I'll just make my 5.56 suppressor use the dead air mounting system, it's stupid fast, engineered to minimize fouling on threads, and stupid secure.... plus I love my dead air brake" On this date GRIGGERS also discussed detailed plans for making suppressors, indicating the technical knowledge for their production. GRIGGERS also discussed purchasing a mill and lathe for \$4,000, and selling suppressors to pay for it.

20. 8/12/2019: GRIGGERS discussed the possibility of getting a "Title 7 Type 2" manufacturing license so he could legally make guns and suppressors. This indicated that as of this time, he did not have one. No further messages from GRIGGERS indicated he had obtained such a license.

21. 8/12/2019: GRIGGERS described using excessive force on a theft suspect, using racial slurs: "Oh, got wrapped up in my AR and forgot to tell y'all that I beat the shit out of a nigglet Saturday. Fucker tried to steal a 33rd glock mag from the local gun store for his buddy's "smith and Wesson"(see the problem? Even if it was a .40s&w then a 9mm mag wouldn't work). Sheriff's dept said it look like he fell."

GRIGGERS described the beating as "sweet stress relief." GRIGGERS went on to make a statement that he intended to charge black people with felonies in order to keep them from voting: "It's a sign of beautiful things to come. Also I'm going to charge them with whatever felonies I can to take away their ability to vote"

22. 8/26/2019: GRIGGERS described planned projects making suppressors once he got a lathe.

23. 9/17/2019: GRIGGERS described owning a .22 cal suppressor.

24. 9/19/2019: In discussing red flag laws, ZAMUDIO mentioned that GRIGGERS was exempt from them because he was with law enforcement. GRIGGERS replied "LE isn't exempt, but yes the idea is that it c shot goes down I'm the guy on the inside. I can figure out if my dept is siding with the enemy or not, and from there I'm either positioned to maximize damage by attacking from the inside, or coordinate efforts to safely identify ourselves as patriots in order to maximize weapons pointed towards the enemy and minimize friendly fire" He also described

obtaining law-enforcement-only items: "Also I want to get LE only stuff like flashbangs and entry charges and say I used them in training when I pocketed them." In reply, ZAMUDIO stated "Yeah I'll pay big money for bang an boom...I'm ready to terrorize la"

25. 10/2/2019: During a series of messages in which members of the text group discussed a potential civil war and killing liberal politicians, GRIGGERS wrote: "Still, if they're famous liberals they can't die from a gunshot without becoming a martyr really.... unless you successfully made it look like Muslims in public. Then it's cool if we can get dumbasses to focus on the shit brown of their skin(the realproblem).... but would be better with a machete so they can't go the gun grabber route. Don't want to create as much as you kill. Maybe could make it look like niggers but Idk if that angle would work. Idk, I think it might be best to fight the next generation. Castrate, kill, remove voting rights, and also educate the population. Basically kill and fuck the enemy out of existence. Only problem is you can't expect to get them all that way, and it doesn't solve the problems already in power...If open warfare is triggered it must be quickly and massively. That way we can't be taken out slowly over time. They're good on the slow front bc no child left behind fucked our education system, and niggers worship welfare and reproduce more to get paid more. We would win quick as hell in actual war.....I just don't know if America would actually be a thing after an actual civil war bc of the amount of

foreign powers trying to take the king off the top of the hill..... the UN would want to "help us" and try to restructure us to be globalist socialist bitches"

26. GRIGGERS continued with the statement "Maybe I am over complicating shit, idk.... that's why I'm looking for more information gathering capability and positioning myself in a place to get more info first hand and hopefully make sure at least this state stays red..... though it might be better to do some trips just south to a swing state to make sure it swings the right way." It was not specified what action would be taken in these trips to what is likely Florida. His reference to gathering first-hand information may be an indication that he intends to use law enforcement information to facilitate militia activity or racial violence.

27. On 4/21/2020, GRIGGERS sent pictures of a lock picking kit and stated it was so "I can get out of places I explore without leaving obvious marks and having to explain some dumbass shit I did."

28. On 5/16/2020, GRIGGERS stated that he had purchased two suppressors on the website Wish.

29. On 11/18/2020, a search warrant signed by the Honorable Judge Charles H. Weigle, United States Magistrate Judge, for the residence of Cody Richard Griggers. The residence was physically located at 4146 Georgia Highway 112, Wilkinson County, Montrose, Georgia. The search warrant was executed on

November 19, 2020 and during the search of the residence a firearm appearing to be a short-barreled rifle, was observed in a closet of the residence which was in close proximity to Cody Richard Griggers' bedroom.

30. The short barreled rifle, was a Browning Viana 12 guage shotgun, bearing serial number 113MR01948. The barrel measured to be approximately 14 inches in length which is 2 inches shorter that the 16 inches required by law. A query was conducted of the NFRTR revealed GRIGGERS did not have any NFA items lawfully registered to him nor was the aforementioned rifle registered as a short barreled rifle.

31. Based on Affiant's training and experience into the unlawful possession of firearms under Title 26, United States Code, Section 5861(d) possession of a firearm not registered to him in the (NFRTR) and 5861(f) manufacturing of illegal firearms, there is probable cause to believe that GRIGGERS committed an act in violation of Title 26, United States Code, Sections 5861(d), Possession of an Unregistered Firearm.

I declare under the penalties of perjury that the forgoing is correct to the best of my knowledge and belief.
